

Project Initialization and Planning Phase

Date	12 July 2026
Team ID	xxxxxxx
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem State- ment (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
---	----------------------------	--------------------------	------------	----------------	--------------------------------

PS-1	A farmer	Select the most suitable crop for my land	I don't know which crop matches my soil nutrients, weather, and rainfall conditions	Agricultural decisions depend on many environmental factors and expert knowledge	Confused and worried about low crop yield
------	----------	---	---	--	---
