Empathy Map	4 Marks

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

-

-

I want to grow the most profitable crop.

-

-

I need reliable crop recommendations.

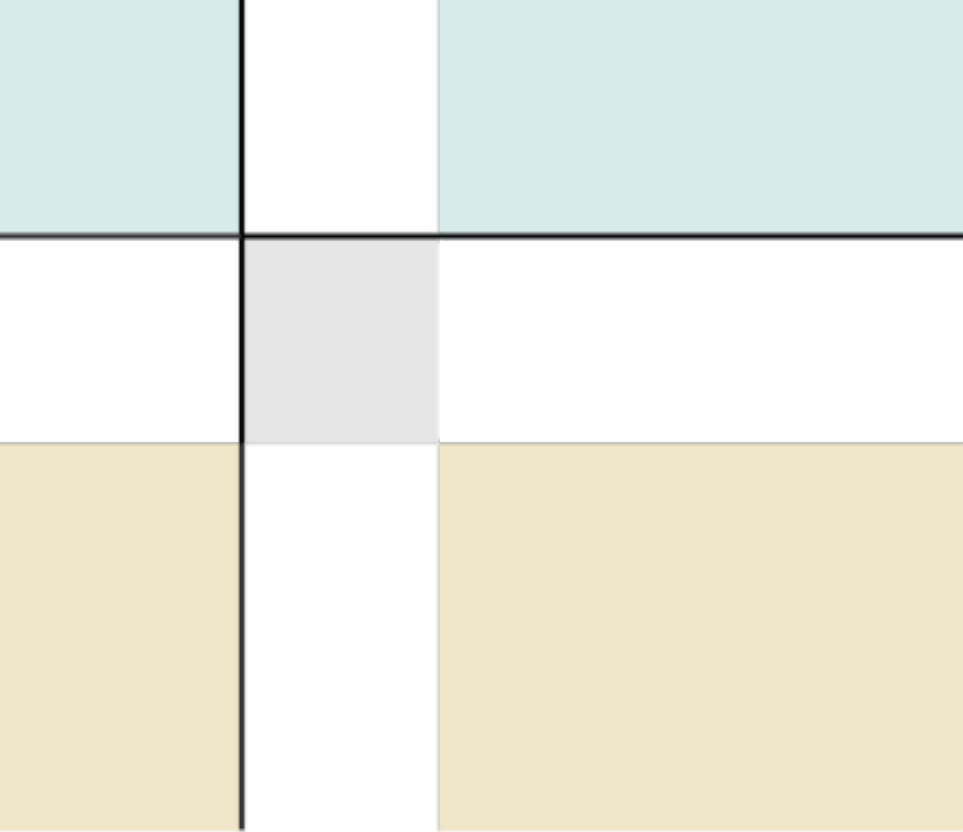

-

-

I want to avoid crop failure.

THINKS

Which crop is best for my soil? Will the weather affect my yield?

-

-

Confused by changing weather conditions.
Worried about low crop yield and financial loss.
Uses the OptiCrop recommendation system before planting.
Confident after receiving AI-based crop recommendations.

**PERSONA
NAME**
*(Role / User
Type)*

DOES
Can technology help me make better decisions?

FEELS

-

-

Tests soil properties .

-

-

Checks weather forecasts.
