

Demonstration of Proposed Features

Date	12 July 2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Crop Recommendation	Predicts the most suitable crop using soil and weather parameters	Implemented	Yes	Working successfully
2	User Input Validation	Accepts valid values for N, P, K, Temperature, Humidity, pH, and Rainfall	Implemented	Yes	Prevents invalid input
3	Machine Learning Prediction	Uses trained ML model to generate crop recommendation	Implemented	Yes	Accurate predictions
4	Confidence Score Display	Displays prediction confidence with the recommended crop	Implemented	Yes	Improves user understanding
5	Crop Information Display	Shows detailed information about the recommended crop	Implemented	Yes	Helpful for farmers
6	Web-Based User Interface	User-friendly Flask web application for prediction	Implemented	Yes	Easy to use

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
